

School Player not in the affiliated club for CBA Winter Club Basketball

- Sign Off Sheet -

If a player attends a school with an affiliated club, he/she will play for that affiliated club in normal circumstances (no dispensation required).

A player can apply for a dispensation to this only if all three, of school (where the player is a student), affiliated club, and the new club, all sign off on a request.

Player Name: _____

School Approval of Club Change for the season (Administrator or Head of Basketball/Sport only):

 Print Name/Role	 (Signature)	 Date
-------------------------	---------------------	--------------

Affiliated Club – where the player will not be playing this season (Administrator or President only):

 Print Name/Role	 (Signature)	 Date
-------------------------	---------------------	--------------

New Club – where the player will be playing this season (Administrator or President only):

 Print Name/Role	 (Signature)	 Date
-------------------------	---------------------	--------------

Once all three signatures are collected, the completed form needs to be forwarded to the CBA office (via james@canterbury.basketball)

The CBA to check the signed request, and has final veto right here, but only after it has been talked about and signed off by the three parties first. All three entities, plus the player in question will be advised of the outcome after this stage.

Schools will need to make sure they communicate with all of their players which club they are aligned with, so as to limit the number of applications coming through. (Main purpose of this change is to strengthen the school/club connections, to help educate players on the limits to which teams they could play for, and to make sure teams know if a specific player is unable to be “pulled” up at all).
